Dedication

In appreciation for our new football field, we, the students of Vernon High School, dedicate our 1955 Jacket Buzz to the Vernon Lions Club. The Lions Club sponsored the building of the field and worked untiringly until it was completed in October. We commend this civic group on their effort to improve our community.

"Liberty, Intelligence--Our Nation's Safety."

MISS FULLER

MRS. DYKES

Jo Ann Johnson, editor-in-chief of the '55 JACKET BUZZ began early in the fall lining up the activities for her staff. After she ahd her crew--Elizabeth Brock, assistant editor and Mary Cathrin May, art and layout editor--decided on the musical theme, which is portrayed throughout the book, salesmen were added to the staff.

Following successful ad-selling campaigns, the staff began producing material for typists Joanne Simmons and Jimmie Moore to finish.

Finally, here is your '55 JACKET BUZZ. Our sincerest thanks to Mrs. Dykes and Miss Fuller our faculty advisors.

We hope you like it!

Senior

LORINE HELMS and CLAUD HICKS, JR., prove themselves a couple of the most dependable people we know of.

No, we're not going back to the horse and buggy days. FRANK BUTLER and JOYCE GILMORE are much too clever for that. They have other means of travel.

Success is inevitable for these two: JOANNE SIMMONS and IRVING ROCHE, JR.

Favorites

As to athletics, they're it! MARY NELL LOCKE and COLEMAN REGISTER.

WILLODEAN SHEFFIELD and GWYNNE MAY are what we call talented.

Some people have an overload of friendliness. Such is the case with VERA MAE DANFORD and GEORGE SHEFFIELD.

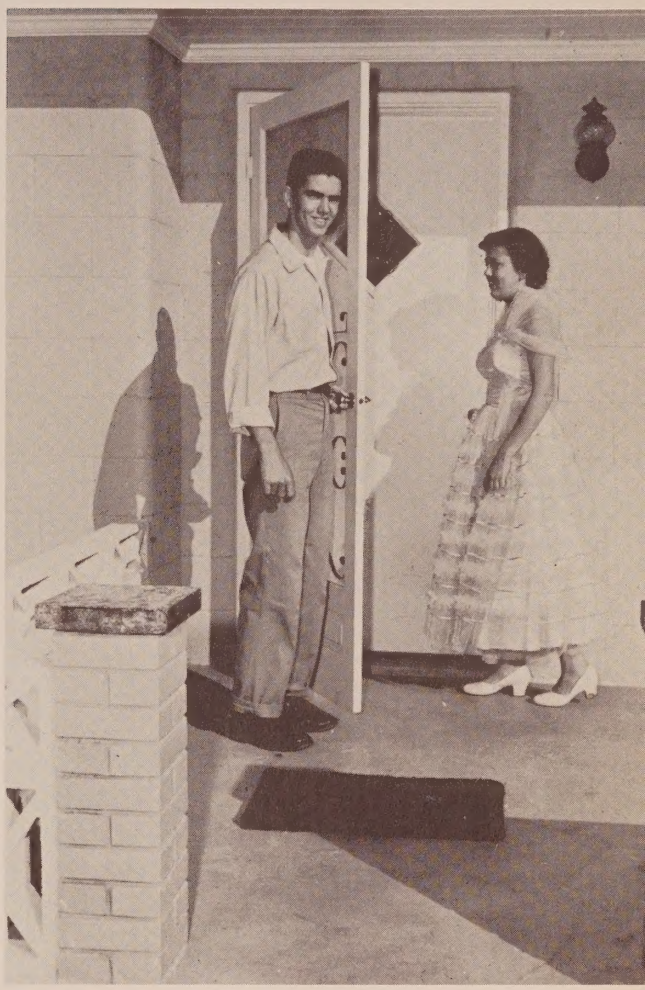
Webster says intellectual means "above the average in intelligence," and that's exactly what JO-ANN JOHNSON and JOSEPH REGISTER happen to be.

If you're looking for laughs, pert ADEAN MORRELL and DOCK FAISON are always prepared.

Those smiles on WINDELL MAINER'S and MALCOLM DIXON'S faces come from their being selected the most popular students in the senior class.

For the femina perfecta, handsome ARNOLD GALLOWAY chooses PEGGY COMPTON.

Courtesy is a rule JAHAZA HEWETT and CLARENCE FUSSELL go by.



The remaining seniors are simply up in the air over graduation.

Mr. and Miss V.H.S.

The Future Teachers have had many worthwhile projects this year. They sold bracelets and sponsored Mr. Charles Fuller, our glee club director, in a concert. The proceeds were used to buy a water cooler for the school.

Roy Yates, editor-in-chief, heads a staff of efficient workmen in issuing the school paper once a month. Windell Mainer and Joanne Simmons are the business managers, and Vera Mae Danford is feature editor. Girls' and boys' items are handled by Mary Nell Locke and Coleman Register. Joyce Gilmore takes care of the alumni articles while Annie Myrel Collins supplies the art work.

Pictured below are next year's paper staff learning their trade by interviewing Vernon mayor, J. D. Nexon, a visitor at school. Mr. Irving Roche is sponsor of the staff again this year.

Reporters and Camera Club

This club is a branch of the school paper. It meets once a month with the paper staff and plans the following edition of the paper.

Occasionally, the group is taken on a field trip, and various landscapes and happenings are photographed.

"Go West . . ."

In the summer of '54 Mrs. Lottie Dykes, V. H. S. yearbook advisor for seven years, made a trip to California. On these pages she shares some of the sights seen en route.

All ready to descend into Carlsbad Caverns, New Mexico! Lunch is served in a spacious room 750 feet underground. Giant stalagmites 62 feet high, 16 feet in diameter, tower around one in the Big Room, which has a maximum ceiling height of 348 feet.

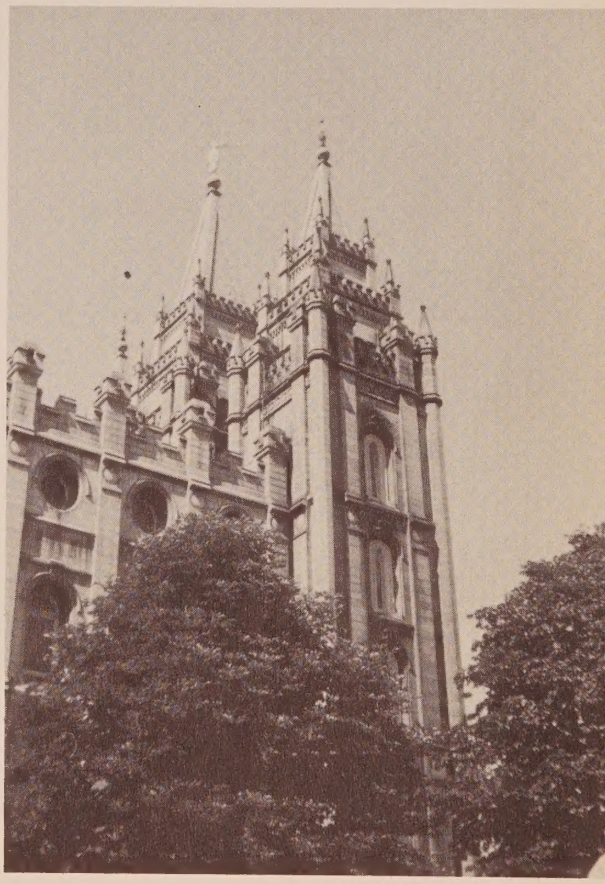
These Indian women and children spread out their pottery for inspection in Santa Clara Pueblo (near Santa Fe), New Mexico.

Tharp Log, Sequoia National Park, California is a cabin made from a fallen, burned out, hollow redwood tree. John Muir, American nature essayist, was once an appreciative guest, and in his writings refers to it as "a noble den."

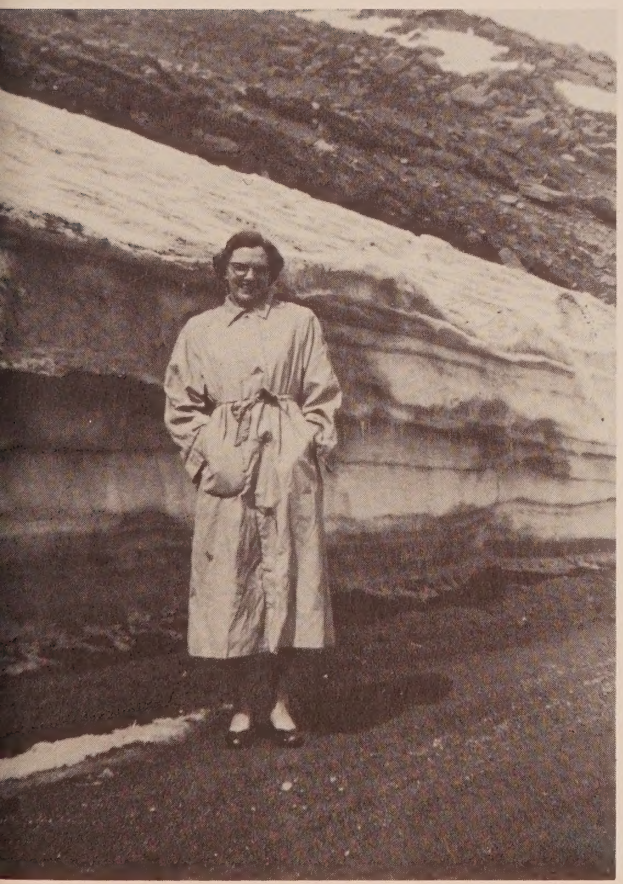
In front of the home of ex-President Truman, Independence, Missouri.

Mrs. Dykes and her sister, Miss Almeda May, at Grand Canyon, Arizona.
Grand Canyon is a titanic gorge, four to eighteen miles wide, 217 miles long, cut by the Colorado River. Rising from its depths are whole ranges of mountains, reaching a mile toward the sky.

A "desert" portion of Botanic Gardens, Fort Worth, Texas.



Mormon Temple, Salt Lake City, Utah is constructed of pure gray granite from nearby quarries.
The statue of the angel Moroni, atop the left spire, is made of copper covered with glistening yellow gold.



About 1500 feet from the top of Pike's Peak, Colorado, altitude 14,110 feet.
